

§ 929.55 Interhandler transfer.

(a) Transfer of cranberries from one handler to another may be made without prior notice to the committee, except during a period when a volume regulation has been established. If such transfer is made between handlers who have packing or processing facilities located within the production area, the assessment and withholding obligations provided under this part shall be assumed by the handler who agrees to meet such obligation. If such transfer is to a handler whose packing or processing facilities are outside of the production area, such assessment and withholding obligation shall be met by the handler residing within the production area.

(b) All handlers shall report all such transfers to the committee on a form provided by the committee four times a year or at other such times as may be recommended by the committee and approved by the Secretary.

(c) The committee may establish, with the approval of the Secretary, rules and regulations necessary for the implementation and operation of this section.

[38 FR 29801, Oct. 29, 1973, as amended at 57 FR 38750, Aug. 27, 1992]

§ 929.56 Special provisions relating to withheld (restricted) cranberries.

(a) Except as otherwise directed by the Secretary, as near as practicable to the beginning of the marketing season of each fiscal period with respect to which the marketing policy proposes regulation pursuant to § 929.52(a), the committee shall determine the amount per barrel each handler shall deposit with the committee for it to release to him, in accordance with paragraph (b) of this section, all or part of the cranberries he is withholding; and the committee shall give notice of such amount of deposit to handlers. Such notice shall state the period during which such amount of deposit shall be in effect. Whenever the committee determines that, by reason of changed conditions or otherwise, a different amount should thereafter be deposited for the release of withheld cranberries, it shall give notice to handlers of the new amount and the effective period

thereof. Each determination as to the amount of deposit shall be on the basis of the committee's evaluation of the following factors:

(1) The prices at which growers are selling cranberries to handlers,

(2) The prices at which handlers are selling fresh market cranberries to dealers,

(3) The prices at which cranberries are being sold for processing into products, and

(4) The prices the committee has paid to purchase cranberries to replace released cranberries in accordance with this section.

(b) Any handler may make a written request to the committee for the release of all or part of the cranberries he is withholding from handling pursuant to § 929.54(a). Each such request shall state, in addition to all other information as may be prescribed by the committee, the quantity of cranberries for which release is requested and shall be accompanied by a deposit (in cash, or a cashier's or certified check made payable to the Cranberry Marketing Committee) in an amount equal to the product of the number of barrels stated in the request multiplied by the then effective amount per barrel to be deposited. If the committee determines such request is properly filled out, is accompanied by the required deposit, and contains a certification that the handler is withholding such cranberries, it shall release to such handler the quantity of cranberries specified in his request. Such determination shall be made not later than 72 hours after the request is received by the committee.

(c) Funds deposited for the release of withheld cranberries, pursuant to paragraph (a) of this section, shall be used by the committee to purchase from handlers unrestricted (free percentage) cranberries in an aggregate amount as nearly equal to, but not in excess of, the total quantity of the released cranberries as it is possible to purchase to replace the released cranberries. All handlers shall be given an opportunity to participate in such purchase. If a larger quantity is offered than can be purchased, the purchases shall be made at the lowest prices possible. If two or more handlers offer at the same price,
